

## SOFTWARE

The image shows a screenshot of a Python IDE with two windows. The left window, titled 'x.py - P:/temp/x.py (3.8.5)', contains a single line of Python code: `print("Hello world")`. The right window, titled 'Python 3.8.5 Shell', shows the output of running the script. It displays the Python version information: 'Python 3.8.5 (tags/v3.8.5:580fbb0, Jul 20 2020, 15:57:54) [MSC v.1924 64 bit (AMD64)] on win32'. It then prompts the user to type 'help', 'copyright', 'credits', or 'license()' for more information. After pressing Enter, it shows a restart message: '==== RESTART: P:/temp/x.py =====' followed by the output 'Hello world' in blue text. The shell prompt '>>>' is visible at the bottom of the shell window.

```
x.py - P:/temp/x.py (3.8.5)
